Education

University of British Columbia **Vancouver, BC**
BSc, Computer Science (Co-op Program) *Sept 2024 – May 2029 (Expected)*

- **Coursework:** Software Construction, Data Structures & Algorithms, Databases, Computer Systems (in progress).

Experience

Global iTech Systems **Calgary, AB**
Software Engineer Intern *Apr 2025 – Aug 2025*

- Profiled server response timing using **Time to First Byte (TTFB)** and resolved N+1 query inefficiencies in Laravel applications.
- Removed redundant CSS, JavaScript, and third-party scripts to reduce unnecessary page resources and simplify page loading.
- Monitored SEO metrics and **Google Analytics** following the changes, observing improved user retention over the subsequent weeks.
- Built React/JavaScript components to implement front-end designs and event-driven user interactions.
- Investigated and resolved recurring database inconsistencies in production applications, improving the accuracy of customer-facing service information.

Projects

Flockwork – Student Community Platform | nwPlus HackCamp Nov 2026
React, TypeScript, Python, FastAPI, SQLAlchemy, Auth0

- Built React/TypeScript matching interfaces and FastAPI endpoints for compatibility-ranked Buddies and SkillShare swipe decks, including mutual-like matching.
- Implemented persistent project listings with SQLAlchemy models and a database migration, connecting creation, browsing, deletion, and teammate discovery to the React client.
- Contributed to Auth0 integration and added automated tests for project ownership, private-field exclusion, profile validation, and matching behavior in a four-person team.

Flashidex – Study Application | Personal project Jun 2025–Mar 2026
React, Java, Spring Boot, MySQL

- Built a Spring Boot REST API for study decks and flashcards, with a React interface and game-controller support for study sessions.
- Implemented a heap-based priority queue to order flashcard review by importance.
- Wrote automated browser tests with Cypress and Selenium alongside unit tests for the study application.

Awards

Best Use of Auth0 — nwPlus HackCamp, Flockwork Nov 2026
Dean's Scholar — University of British Columbia 2024–2025

Technical Skills

- **Languages:** Java, Python, JavaScript, TypeScript, SQL, C/C++, PHP, HTML/CSS
- **Frameworks:** React, Spring Boot, FastAPI, SQLAlchemy, Laravel, Node.js
- **Tools & Testing:** Git, MySQL, PostgreSQL, AWS EC2, Auth0, JUnit, pytest, Vitest, Cypress, Selenium
